

EXPERIENCE CLOTHING LTD

“One of the key qualities that has enabled Experience to continue to strive forward in such a competitive market has been our ability to constantly evolve the business. There is a powerful and determined team spirit within the company, and this fantastic positive attitude and commitment to achieve the target and objectives set will drive the company forward into the future.”

We are manufacturers of ladies and childrens clothing based in Dhaka, Bangladesh since 1994. With factories and offices in the UK, Bangladesh and China the Group has a global presence with exports of 20 million garments annually with more than 10,000 employees supporting the company's business of manufacturing and supplying high quality garments to top brands in the European and US market. Alongside our manufacturing divisions we also have a Dyeing Textile Mill promoting a quicker lead time and providing an advantage for our customers.

By being situated at a low cost and convenient location in Bangladesh, keeping overhead costs low and operating on lower margins has enabled Experience to offer unbeatable value and quick lead times.

With all the latest key looks for the season, from modern basics to high fashion, Experience considers itself a design led business. The company has invested in a substantial design and development programme and is proud to have assembled a strong team of young enthusiastic and vastly experienced design and resource talent.

Experience strives to attain the highest possible level of customer satisfaction in every aspect of the business. The strictest possible quality assurance controls have been set to ensure that the quality and performance standards of each and every garment exceeds the customer's expectations. Our factories use state of art technologies, such as Cad Cam systems directly linked with our customers.

“We believe in getting the right product on time at the right price to our customers.”

“We believe in investing in the latest technology to give higher efficiency and quality to our customers.”

We offer one of the shortest delivery times in the region holding around 2 million metres of fabric on the floor at any one time, thus enabling us to offer speed to our customers. In a world where businesses are driven by price and margin, Experience Clothing Co Ltd are proud to guarantee that in every aspect of the company's trading, we strive to achieve the highest possible moral and ethical trading practices.

We believe that all individuals who work in our garment factories deserve to be treated with dignity and respect, and are entitled to safe and fair working conditions. Our compliance employees are dedicated to improving conditions in the factories hence providing a safe and happy environment for all of our workers.
